I Need You Now

Lyrics, Music, & Vocals by Michele McGovern

Verse 1:

```
                    Abm
May I never be too tired
                     E
May I never be too weak
                    Abm          F#            Abm/E        Eb
May I never be too busy with the pace of life to linger at your feet
                    Abm
May I never be too sure
                     E
May I never be too strong
                     C#m          E             B/G#           Eb
May I never come to rest within myself Oh God, instead of your arms
```

Pre-Chorus:

```
        Abm/E                        F#/Eb
Cause wherever the road of life may lead
  E                    F#
I know one thing's for sure
```

Chorus:

```
            B
I need you now
             Abm
I'll need you then
   E7                          B            F#
I refuse to let this desperation ever reach its end
             B
'Cause I am lost
              Abm
Without your love
            E7        F#       Abm
I need you now, I'll need you then
```

Verse 2:

```
                        Abm
May I never be too poor
                         E
May I never be too 'shamed
                      Abm          Gb                Abm/E          Eb
May I never be too far to feel I can't run back and call upon your name
                      Abm
May I never be too rich
                         E
May I never be too proud
                        Dbm              E               B/Ab            Eb
May I never come to feel that I don't need you Jesus, like I need you now
```

Modulated Chorus:

```
              C#
I need you now
               Bbm
I'll need you then
   F#7                          C#            G#
I refuse to let this desperation ever reach its end
               C#
'Cause I am lost
                Bbm
Without your love
              F#7        G#       Bbm
I need you now, I'll need you then
              F#7        G#       Bbm
I need you now, I'll need you then
               F#7        G#       Bbm
I need you now, I'll need you then
```
